

NEW COLLECTION

CASTRO
WOOD FLOORS

Castro e Filhos was created in 1970 already with the main objective of achieving excellence in the wooden flooring production.

The company headquarters are located in the North of Portugal with the main installations covering an area over 35.000m² (16.000m² covered). A second production unit is located in Hungary with a total area of 20.000m² (4.000m² covered). Castro e Filhos is a reference company in the international market of varnished solid wood flooring, outdoor flooring and engineered hardwood floors.

Currently, more than 80% of the production output is exported to over 32 countries worldwide.

The company resorts to the most recent technologies and to the use of raw material of the highest quality. The optimization in the manufacturing process combined with the production of pellets for power generation; underpin Castro e Filho's commitment in terms of environment and sustainability.

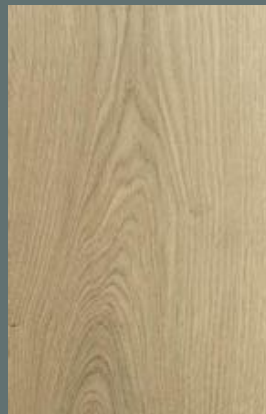

CastroWood Floor is a FSC certified company.
